

学术报告

报告题目: Fabrication and application of crystalline submicron spherical particles

报告人: Dr. Naoto Koshizaki

National Institute of Advanced Industrial Science and Technology (AIST)

日本产业技术综合研究所

时 间: 2012年12月28日(本周五)下午14:00

地 点: 三号楼三楼321会议室

报告人简介:

Dr. Koshizaki earned his PhD degree from University of Tokyo. He acted as director or group leader of some research organization in National Institute of Advanced Industrial Science and Technology (AIST). His research fields focus on inorganic nanomaterial process proceeds under extreme conditions like high temperature, ultra high vacuum, high pressure, etc. He is studying a novel on-demand nanoprocess for innovative nano@micro structure fabrication by merging inorganic and organic processes. He has published more than 160 papers in *Cord. Chem. Rev.*, *JACS*, *Angew. Chem.*, *Adv. Mater.*, *ACS Nano*, *Adv. Funct. Mater. Small* etc. and citations are more than 2500.
