

学术报告

报告题目: **Designer Nano-materials for Delivery Applications**

报告人: 余承忠 教授

澳大利亚昆士兰大学生物工程与纳米技术研究所

报告时间: 2014年12月29日（周一）上午10:00

报告地点: 中科院固体所三号楼221会议室

报告人简介:

Prof. Yu is a materials scientist in functional nanostructured composites and their applications in biotechnology, clean energy and environment protection. Since 2000, he has published over 180 peer-reviewed journal articles, which have been cited over 8500 times and resulted in an H-index of 49. Since he joined The University of Queensland in 2010, he has attracted 5 DP, 2 LIFF, 1 Future Fellowship and 1 Linkage from the Australian Research Council, 1 grant from the Cancer Council of Queensland, 1 Queensland

Research Partnership Project. He has developed broad industrial collaborations to extend the applications of functional materials in a real world. In this talk he will summarise the latest progresses in his group on the designed synthesis of functional nano-materials and their applications, with a focus on drug delivery for improved human and animal healthcare.
